**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 9/29/05, Mr. Poricelli requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 23-0650 the required fee of \$110.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 3, --wherein the lever is capable of rotation only about the fulcrum-- has been inserted after "body";

In claim 16, line 8, --and is capable of rotation only about the fulcrum-- has been inserted after "pocket";

In claim 19, line 10, --wherein the lever is capable of rotation only about the fulcrum-- has been inserted after "body".

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive support in the application disclosure as originally filed. The primary reason for the allowance of the claims is the presence of limitations in the independent claim(s), which are not found in the prior art references. Hence the prior art fails to disclose and/or make obvious a toolholder comprising a body having a pocket therein for receiving a cutting insert and a lever pivotally mounted about a pivot fulcrum on the body and adapted to hold the cutting insert within the pocket, wherein the lever has a first end adjacent to the pocket for contacting the cutting insert and a second end opposite thereto such that the pivot fulcrum is substantially closer to the first end than 1 to the second end.

Specifically, the inclusion of the limitation "wherein the lever is capable of rotation only about the fulcrum" in the claims is absent from the prior art teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
